ALL-HEALING OINTMENT

A LARGE supply of McAlister's Ointment, just rec'd and for sale by the Agent,

D HUBBEE

may 27 No 2 Kenduskeag Bridge

Dr. S. O. Richardson's
CELEBRATED SHERRY WINE
BITTERS.

THE Proprietor of this Medicine offers to the Public the result of an extensive practice and thorough investigation of the laws which govern the human system

It cannot be denied, by those who have become acquainted with the singular virtues of these Bitters that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful, adult and declining life

"The stomach crammed with every dish,
A tomb of roast and boiled and flesh and fish;
Where bile and acid and phlegm and acid, jar,
And all the man is one intestine war"

The extensive sympathies which subsist between these and every other part of the living body is the foundation of nervous diseases of all kinds,—Irregular Appetite Languor, Drowsiness Wandering Pains, Headaches Lowness of Spirits, &c

And these, in their turn give birth to Dyspepsia Palpitation of the Heart, Shortness of Breath, Jaundice, Piles Fevers Inflammatory Humors Coughs, and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in apoplectic cases, in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences they will be scarcely felt.

On the contrary, in obstinate cases, they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished, they act on the system in connexion with our food, each receiving motion assists and strengthens the constitution is restored to a state of health and renewed vigor.

☞ For sale wholesale and retail, at the Doctor's Office No 15 Hanover Street Boston, and in Bangor by G W. Ladd, A P Guild, Potter & Brown, Hall & Young and N. B Folsom, and all the Agents throughout the State. 3taw&w4m.

GILT and Mahogany framed Looking Glasses from $5 to $18 G. A. HYDE.

NOTICE TO PROPRIETORS OF CERTAIN LANDS IN THE STATE OF MAINE.

THE Legislature of the Commonwealth of Massachusetts by a Resolve passed 1st April 1836 directed the Land Agent of said Commonwealth, to give notice to sundry proprietors of land in the State of Maine who were required by a condition contained in the original deeds of conveyance from the Commonwealth, to place a certain number of families on their respective tracts and requiring them to furnish evidence of the fulfillment of said condition, or pay the sum of $30 for each family deficient on the first day of June 1836 or the lands would be declared forfeited

Pursuant to said Resolve, notice was soon after given to all the proprietors of lands subject to said condition, most of whom have complied therewith and removed the incumbrance The proprietors however of the following townships, or tracts have not responded to the notice (rather have they so far as is known to this office) settled for or complied with said condition viz In the County of Cumberland—a gore of land lying between the town of Raymond and Otisfield, formerly conveyed to Samuel Phillips

County of Franklin—Township Letter D conveyed to Jonathan Gardner, and number two and number three in the third range

County of Oxford—Letter A No 1, now the town of Riley, and A, No 3, now the town of Newry

County of Somerset—A township No 2 1st Range north of Bingham's Kennebec purchase granted to the Trustees of Sandwich Academy

County of Penobscot—Township No 3 on the west side of Penobscot River granted to the Maine Literary and Theological Institution, now the town of Argyle, South half of township No 3, 8th range North of the Waldo patent granted to Dwelle and others and the north half of township No 6 8th range granted to the Trustees of Warren Academy

County of Washington—Townships No 3 1st range west of Passamaquoddy River granted to Samuel Hinckley, No 1 4th range date granted to Williams College now called Westchester and a half township on the Eastern boundary line granted to the Trustees of Limerick Academy now called New Limerick

The undersigned is required by a late resolve of the Legislature of Massachusetts passed the 14th day of March last again to give notice to delinquent proprietors and to take such measures as he may deem to be necessary, to recover to the Commonwealth the possession of any of the above named township or tracts of land from such proprietors as shall have failed on the first day of December next of complying with the requisition of the Resolve of the first day of April 1836

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U S Patent Office, Washington

No. 22 State-Street, Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded free of expense and risk to their owners and with all possible despatch The subscriber will prepare Caveats Specifications Assignments and all the necessary Papers and Drawings, will make researches into American and Foreign works for establishing the validity or utility of inventions and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents The experience of fourteen years practice—an extensive collection of rare works documents, decisions &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established and to which daily additions are being made together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment

EXCELLENT WATER POWER FOR MILLS AND MANUFACTURING PURPOSES.

THE excellent water power at the outlet of the Great East Pond in the town of New port County of Penobscot and State of Maine is now offered for sale in such parts as purchasers may desire This water power combines three essential advantages an unfailing supply of water the pond covering a large portion of the town and raised with little expense or damage free from all risk as to freshets, and is never frozen It is situated in the heart of rapidly increasing and thriving agricultural county and is only twenty three miles distant from the city of Bangor

There is now situated on this outlet a Tannery an Iron Foundery and Machine Shop, and a Saw Mill and a Grist Mill

The owners wish to dispose of a privilege sufficient for driving a large amount of machinery and also of several acres of land adjoining or portions of the same to be used for various manufacturing purposes

It is believed that the advantages here offered are rarely equalled and never excelled, and that the terms of sale will be such as to be worthy the attention of capitalists and others who may wish to engage in manufactures

Notice to Mill Owners.

THE undersigned having purchased one half of the right of making vending and selling the EMERSONS PATENT CAST IRON WATER WHEELS for the United States have at great expense fitted up patterns for casting in every different sizes of these Wheels which are particularly adapted to the various heads of water for which they may be wanted

Upwards of two hundred of these Wheels have been put in operation in this State within the last year giving perfect satisfaction in the public

A model of these Wheels was tested at Lowell Mass the past summer by a Board of Engineers composed of Ithamar A Beard and Jame Barnes Esqrs of Lowell and Henry Stone Esq of Manchester and it was afterwards placed in the hall of the Mechanics Fair at their last exhibition held in Boston and received the only diploma awarded to water wheels

We annex an extract from the certificate of Mr A Stone Esq one of the board of engineers giving a statement of the experiments made with the model at Lowell which establishes the great superiority of the Valentine Wheel over any of the kind in use

"MANCHESTER July 11 1841

Dear Sir—I send you the results of several experiments made at Lowell the other day with your Model of Valentine's Patent Reacting Wheel I consider the trial to have been a very fair one and the results are certainly very creditable to your wheel I think they prove conclusively that your wheel is at least 50 per cent stronger than any of the Tub or Reacting Wheels now in general use

The coefficient of effect or per centage of power derived from well constructed Breast or Overshot Wheels acting under favorable circumstances is usually reckoned at 66 per cent and that of Undershot Tub and Reacting Wheels at 50 per cent but in nine cases out of ten in practice I think it will be found that the power derived from Breast Wheels will not exceed 60 per cent of the power applied or the power derived from Tub Undershot or Reacting Wheels 25 per cent of the power applied, indeed I know of well constructed Tub Wheels acting apparently under favorable circumstances that do not give a coefficient of effect equal to 20 per ct

With the results of your wheel before us it needs no arguments to show how vastly superior it is to such Wheels as I have mentioned The least result obtained from your wheel gives us about 42 per cent of the power applied which is nearly double of the power that could be derived from the common wheels before mentioned acting under the same circumstances

I have added nothing to the coefficient of effect for the friction of the wheel and apparatus which according to our measure of it was 40 lbs or 1 10th of the heaviest weight raised If this were added, as perhaps it should be to get at the actual effect of your wheel it would give as the result of all the trials a coefficient of effect of 50 per cent which I have no hesitation in saying is a result that may be obtained from any wheel similar to the model well constructed and acting under favorable circumstances

Experiments No s 1 2 and 3, were made without back water Ex No 1 100 lbs lifted 9 1/2 feet—fall 5 08 feet—effect 42 8 10 per cent 2 400 lbs lifted 9 1/2 feet—fall 5 08 ft—effect 41 9 10 per cent 3 400 lbs lifted 9 12 ft—fall 5 7 feet—effect 42 5 10 per cent

The mean of experiments No's 1 2 and 3 would be 42 4 10 per cent without the friction or allowance of about 47 per cent which may be considered as the effect of your wheel when working free from back water

In experiments No's 4 5 and 6 the wheel was immersed in back water, but was very evidently overloaded

In experiments No's 7 8 and 9, wheel was immersed in back water

Ex No 7 996 lbs lifted 9 1 2 feet high—fall 4 006 ft—effect 47 3 10 per cent 8 496 lbs lifted 9 1 2 ft—fall 4 0 1 ft—effect 58 3 10 per cent 9 296 lbs lifted 9 1/2 feet—fall 4 01 feet—effect 48 1 10 per cent

The mean of experiments 7, 8 and 9 would be 48 6 10 per cent besides the friction, or all an average of about 53 per cent which may be considered as the effect of your wheel when working submersed in back water

LORANE'S PILLS:

OR

VALUABLE UNIVERSAL MEDICINE,

OF THE

French College of Health in Paris

THESE Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the Banner from all others This *Extraordinary Medicine* has actually done WONDERS within one year past all over the inhabited world where it has been introduced They cause no pain or uneasiness, of any kind in their operation and require neither change of diet or care of any kind

The attention of the readers is respectfully called to the following important results from the use of these Pills It will be seen, how very great achievements have heretofore been made by the use of this invaluable medicine—still greater, and more remarkable cures due happen

SWELLING OF THE BODY FROM HEAD TO FOOT, CURED!

BOSTON (Mass) March 10 1844

SIR—About a year since I was taken severely ill, with a swelling of the body from head to foot, so that I was entirely helpless! The doctor advised me to go to the Hospital, for he said he did not understand my case The persuasion of friends induced me to try Dr Lorain's Vegetable Pills which in a few days produced a great change in my system by increasing the natural discharges causing an appetite relieving the pain, removing the swelling, and giving me strength and a perfect cure

MARY JANE FRANCES

A SEVERE PAIN IN BOTH SIDES CURED!

LOWELL (Mass) April 20, 1844

SIR—For the last few months I have been afflicted with a severe pain in both sides at times so hard that I could scarcely get my breath * * * It is a pleasure to feel well—but a much greater one to say that I was cured immediately upon taking a dose of Dr Lorraine's Pills J BROOKS

A HACKING COUGH CONSTANTLY ATTENDED ME!

BOSTON, (Mass) June 1, 1844

SIR—In February last, I took a sudden cold, after which, a hacking cough constantly annoyed me, and this, combined with my other maladies, rendered me truly miserable, as every body did me that I was in a consumption Since I have taken Lorraine's Pills, and now every body tells me that I am well,—I feel as well as ever I did

TRIUMPHANT SUCCESS OF

BUCHAN'S HUNGARIAN BALSAM,

THE GREAT ENGLISH REMEDY FOR

CONSUMPTION!

THE great and only REMEDY for Colds Coughs, Asthma, and CONSUMPTION is the *HUNGARIAN BALSAM OF LIFE* discovered by the celebrated Dr Buchan of London England, and introduced into the United States under the immediate superintendence of the inventor

The extraordinary success of this Medicine, in the cure of Pulmonary diseases, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians as CONFIRMED AND INCURABLE The Hungarian Balsam has cured and will cure, the *most desperate cases* It is no quack nostrum, but a standard English Medicine of known and established efficacy

INCONTESTIBLE PROOFS.

Of the efficacy of this Balsam in the worst forms of Consumption.

From Dr Storer of Saco, Me

DR BRADLEE Dear Sir The Hungarian Balsam is, beyond all question a most perfect and admirable preparation, for Diseases of the Lungs I have used it extensively, and in my professional practice for more than two years with the most uniform and entire success, in cases of severe Pulmonary Disease, and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted

Yours Respectfully,
FREDERICK T STORER M D

Saco, May 22, 1845

Valuable evidence from David Bugbee Esq Bangor

BANGOR, Sept 16, 1844

DR BRADLEE—Dear Sir At your request I here give you a report of my success as Genral Agent for the Hungarian Balsam I first now had the Agency of that excellent medicine about two years and I've sold in that period, nearly twelve dozen or 1728 bottles Much of it has been used in the vicinity of Bangor but many dozens have been sent several hundred miles to Houlton and the Provinces to Machias Eastport, &c The success of this Balsam in the relief and cure of Pulmonary diseases is absolutely astonishing Hundreds, I am sure, have been saved from a premature grave by this medicine invalids supposed to be past all hope, have been restored to complete health and in the last moments of the dying it has been in its comforts is by no means Instances of cures of children affected with severe and alarming coughs, it has been applied with great success several instances of this kind are within my personal knowledge It feed this is a great medicine its reputation is established here, and its sales are constantly increasing

Yours truly,
DAVID BUGBEE

Another Life Saved.

BATH, Me Feb 24 1845

DR BRADLEE Dear Sir I feel so much I desire to give you a full account of the benefit received from your Hungarian Balsam on my daughter who has been for a number of years afflicted with a bad cough, pain in the side, raising of blood and all those painful symptoms which attend such diseases which we supposed Consumption Employed a physician who attended her a long time at great expense and then advised the consultation of a celebrated physician in Boston to go there at still greater expense and after a number of visits from home to Boston the last and the 4 month was for some time of the family physician I used every medicine could, and I could see no benefit from it. I then employed a Botanic Physician for some time who seemed to do her some good, but did not reach the root of the disease I was then advised by a friend to try BUCHAN'S HUNGARIAN BALSAM I have used six bottles with astonishing effect, it has restored her strength cured her entirely of her cough and pain in the side and has wrought a cure, to her accustomed duties I can say it is wonderful that I can recommend it to all who are afflicted with Consumption I have spent much time and money in this case but I think it has been well spent—and will gladly tell any inquirer what I know of the case

I remain gratefully yours, JNO YOUNG

P S I would say further that about five years ago my daughter had a severe raising blood which confined her at times for three years and sometimes very bad, but about two years ago she commenced taking this Balsam The first bottle stopped the raising of blood entirely and she has never been troubled with it since

From J L Ladd, Apothecary, Augusta

AUGUSTA, Me May 27 1845

DR BRADLEE Dear Sir Having sold the Hungarian Balsam for two years past and having personally observed its beneficial effects in many cases of lung complaints and coughs, I feel very severe, I do not hesitate to recommend it as an excellent preparation for those diseases for which it is recommended

Very respectfully, &c J L LADD

GREAT CURE AT AUGUSTA ME

AUGUSTA, May 27 1845

DR BRADLEE Dear Sir I can truly say that the Hungarian Balsam has been of the most signal service to me I have been cured of an affection of the lungs which was thought to be INCURABLE by all my friends, by the use of few bottles One of my children was also restored to health after being pronounced beyond the reach of medical aid by the physicians and is now my constant resort in case of any difficulty in the throat and lungs I have recommended the Balsam to a great many persons and shall continue to do so, as I believe it to be the best thing in the world for diseases of the lungs

Yours truly FRANCIS J WEEKS

From Edward Mason, Druggist Portland, Me

PORTLAND, Me April 17, 1845

DR BRADLEE—Dear Sir The Hungarian Balsam gives good satisfaction in this city and vicinity and I have no doubt from the reports I hear of its salutary effects upon invalids that it is an excellent preparation for diseases of the lungs EDWARD MASON,
Apothecary 52 Middle street

HEAR THE PRESS.

From the Christian Observer, March 2, 1845

The public may place the utmost reliance upon the statements respecting the Hungarian Balsam, by Dr Bradlee the American Agent, who is an old and highly respectable citizen of Boston, a member of a christian church, and a man who would not for any consideration, give his influence in favor of any sort of deception or imposture

From the Thomsonian

If any thing could reconcile us to a departure from Thomsonian principles, in the treatment of disease, it would be the extraordinary reputation of a medicine like the Hungarian Balsam, which we believe both from our self analysis and the statements of the inventor, to be a purely vegetable compound The effect of this medicine in cases of Consumption, is sometimes truly astonishing

☞ Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, Pain in the Side and Chest, Irritation and Soreness of the Lungs, Bronchitis, Difficulty of Breathing, Hectic Fever, Night Sweats, Emaciation and General Debility, Asthma, Influenza, Hooping Cough, and Croup

☞ Sold in large bottles at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this a Great English Remedy, may be obtained of the Agents, gratuitously.

THE GREAT NORTHERN REMEDY.

N. J. DOWNS'

VEGETABLE BALSAMIC ELIXIR,

FOR Colds, Coughs, Consumption, Spitting of Blood, Whooping Cough, Asthma, Croup, Bronchitis and all diseases of the Lungs.

This medicine is purely vegetable—the result not of mere theory and speculation, but of much study and research, during years of debility and suffering; and the inventor having succeeded in curing himself, and having tested its efficacy on thousands of individuals in New England and the western States feels great confidence in recommending it to the public as a safe and efficient remedy It operates most conspicuously in removing all morbid irritation from the Lungs and Pulmonary Organs keeps the cough loose, promotes expectoration, and induces a degree of quiet in the system peculiarly grateful to the patient after having experienced so many days and nights of restless anxiety and suffering Hear the testimony of those who have been benefited by it Hon Bates Turner, late Judge of the Supreme Court of Vermont, says, "I have been acquainted with the medicine called Downs Elixir, for seven years past and from its effect upon myself and in cases where I have witnessed its effect upon others I consider it one of the most fortunate inventions ever made" Robert W Woodruff Esq of Sommerville, N J, after certifying to its good effects upon himself in a case of long standing internal weakness, and coughs concludes thus — This certificate is given with the hope that it may direct the attention of all suffering from colds coughs inward weakness, &c to this invaluable medicine'

Dr Gustavus Bills, of Ashtabula Ohio says "I was induced to try the Balsamic Elixir and having used one bottle with decided advantage I followed it with another which I hate not to say have had a more pleasing and permanent effect than all other cough medicines I ever used William C Perkins of Summersworth Great Falls N H says I have used N H Downs Vegetable Balsamic Elixir for phthisic and found immediate relief and do consider it the best medicine ever used by me for that complaint B Hally Esq of Canton N Y concludes his certificate thus "I have no hesitation in saying to the public that the said Balsamic Elixir was the only means of my recovery and I do most cheerfully and earnestly recommend it to the public' Chaplin Nelson of Waterford Me in a letter to the general agents dated March 10 1844, says The agent of Downs Elixir was here last month and left one and a half dozen bottles with me, not knowing its value I did not take much have sold all he left and finding it one of the most valuable medicines I ever had in my store to sell want you to send on another lot immediately by stage"

Pamphlets gratis, may be had of Agents giving a full description of the medicine, etc

THE Great American Remedy FOR Salt Rheum, Erysipelas, Scrofula, Leprosy, Scald Head, Ulcerated Sore Leg Scurvy, and all diseases of the Skin, OR "JONES'S DROPS FOR HUMORS."

A PERFECTLY safe internal medicine, having now been about three years before the public and its superlative merits thoroughly tested is destined the Proprietors confidently believe to be instrumental still, in the removal of a vast amount of human suffering Let the afflicted procure it immediately—carefully read understand and then faithfully follow the directions and uniform success will be the inevitable result

CERTIFICATES.

This certifies that my daughter about 3 years of age, has been afflicted with Scrofulous Humors from her birth I have resorted to many medicine purporting to be remedies without success, seeing certificates of the effects of Jones's Drops for Humors, I was induced to try it, and I cheerfully say that to all appearance I have done little I effected a cure, and I can confidently recommend it to others similarly afflicted

Saco, April 19, 1844 JOHN B GOWEN

TO ALL WHOM IT MAY CONCERN This may certify that I have sold for two years past, Jones's Drops for Humors, with entire satisfaction to the purchasers, and do not doubt that they are a great and good medicine, for the complaints they are designed for

Topsham, Me, July 29, 1844 EDW. G. BROOKS

MR JONES Dear Sir: The Drops for Humors left with me, are all sold They have been universally approved of and still are called for I do not know of a solitary instance, where they have failed according to directions, in which they have not proved the saving conquerors of the diseases they are recommended for I feel they have truly done a great amount of good to those who have been afflicted relieving the distressed and curing the sick Respectfully yours, &c

Belfast, June 3, 1844. WM. O. POOR

NEW AND MOST EFFECTIVE REMEDY

DR. WOOD'S

SARSAPARILLA AND WILD CHERRY

BITTERS,

For the Cure of the following Diseases.

Jaundice, Liver Complaint all Bilious Complaints, Sick Headache, Heart Burn, Indigestion, Habitual Costiveness, Piles, Palpitations of the Heart Loss of Appetite, Dyspepsia, Nervous Irritations, Debilitated Stomach, Languor, Depression of Spirits, Chronic Rheumatism, Cutaneous Diseases Canker, Syphilitic Diseases, Scrofula, Impurities of the Blood, Pimples and Pustules on the Face, Hereditary Humors, Core Sores, and all diseases arising from an injudicious use of Mercury

The attention of the invalid public and all those afflicted by any of the above diseases is respectfully called to the merits of a new and invaluable preparation from an original recipe of a distinguished physician combining in itself the most active remedial properties of two of the very first articles in the Materia Medica

The Sarsaparilla and Wild Cherry Bitters, were introduced to the public about twelve months ago, and during that period their success has been so great as to induce the proprietor to offer them with still more confidence in the full belief that by entering into more extensive use they will prove a blessing to all those suffering from the diseases above enumerated

DYSPEPSIA OR INDIGESTION.

This anomalous, distressing and almost indescribable complaint—the nature of civilized society has its foundation in a very ungovernable state of the stomach and bowels It is verified by its constant cut off from half the enjoyments of life the pleasures of the table and sweet rest for quiet sleep, attention a confirmed dyspepsia is fatally neglected is but the beginning of more serious and fatal results not of death itself At its first approach it should be checked by an attention to diet and regularity and by the use of some antacid and laxative medicine which invalids can rely upon for this kind is presented in Dr WOOD'S Sarsaparilla and Wild Cherry Bitters, a skillfully prepared and delightful Tonic and Aperient, every day becoming more & more popular The following is one among many certificates of the efficacy of this medicine in the cure of Dyspepsia and Indigestion Head &c

Col Gilbert well known in this vicinity and elsewhere fully certifies to the efficiency of this Medicine

Sandwich Sept 4 1844

Dear Sir—This is to certify that my daughter has been for well Dyspepsia and has not been able to attend school for at least half the time for the last two years, and other medicine failed to do her any good, I was induced to try your Sarsaparilla and Wild Cherry Bitters, and have the pleasure of stating that she is now in good health and able to attend school regularly and enjoy good health Yours &c

NOTICE.

THE undersigned, contemplating a removal from the city, has disposed of his stock of Books and Stationery, and relinquished the business and stand to

Messrs LEWIS, STANWOOD & DAVIS,

to whom he would recommend for their patronage, his former friends and patrons, and the public generally.

All unsettled accounts, either due from or owing to the subscriber, will be attended to by him, for the present, at the old stand, No. 3, Smith's Block, next door to the Post-office.

E. F. DUREN,

Bangor, June, 23, 1845.

The undersigned have formed a co-partnership under the name of

W. LEWIS & CO.,

and have taken the stand formerly occupied by E. F. DUREN (one door west of the Post office), where they will continue the Book Business in all its branches.

They have connected with their establishment a BOOK-BINDERY. All orders for binding will be executed with despatch.

The subscribers hope by their exertions to merit a share of public patronage.

WILLIAM LEWIS,

WILLIAM F. STANWOOD,

JAMES N DAVIS.

*** The Tract and Sabbath School Depositories are retained by the above. Also the Agency for Periodicals.

Bangor, June 23, 1845. j30.

REMOVAL.

—o—

TOMPKINS & DENNISON

HAVE removed to the New and Elegant Store fitted up expressly for them, No. 21 Main-Street, West side, near Hatch Tavern, where they will continue to manufacture Gold and Silver Specs. to order, and keep constantly on hand an extensive assortment of Jewelry, Silver Ware, Combs, Brushes, Perfumery, Chinese Razors, Scissors, Pen and Pocket Knives, Razor Strops and Fancy articles too numerous to particularize.

T. & D. would take the present opportunity to thank the citizens of Bangor and vicinity for the liberal patronage heretofore bestowed on them, and respectfully solicit a continuation, which by strict attention to business they hope to merit.

New Store, No. 21 Main-st. West side.

july 23.

A CARD.

JOSEPH FORBES

GRATEFUL for past favors would inform his friends and the public generally that he has returned and taken Rooms for the present at No 12 Main-street over Messrs Richards & Hale, where all who want a good fitting, easy and well made coat; Gaiter and French Boots; Pantaloons—Vests or any other garment can be accommodated in the very best manner.

Having had six months experience as a cutter in the most fashionable shops, he feels confident of giving satisfaction to all from the medium to the extreme of fashion, and the public may be assured that all work will be executed in the most faithful manner.

*** A good selection of Cloths, Cassimeres, Vestings and Trimmings for sale extremely low for cash. A share of patronage is solicited.

Tailors from the country can be furnished as above with a system and instruction in cutting that will insure success.

E. & J. HOULTON & CO'S.

june 4 No. 6 Smith's Block.

Patent Water Wheel.

THE undersigned, Agents for the manufacture and sale of "VALENTINE'S PATENT WATER WHEELS," are prepared with *patterns* for casting all the different sizes and forms of wheels required for the various conditions in which they are used.

The superiority of these Wheels may now be considered as fully established; the evidence of which may be seen in the fact, that hundreds of them have been put into successful operation in this State within two years past, and also in the fact that a diploma was awarded for them by the managers of the Mechanic's Fair in Boston last year; and further, that many careful experiments were made by scientific Engineers at Lowell last season, the results of which, as stated in a communication by one of them, "prove conclusively that the Valentine Wheel is at least 60 per cent stronger than any of the Tub or Reacting Wheels now in general use."

The undersigned are prepared to furnish the above Wheels, together with all other kinds of mill work and machinery used in this section of the country, upon the most reasonable terms.

FRANKLIN MUZZY & CO.

Atlantic and St. Lawrence Railroad.

We learn from Portland, that while good progress has been made toward obtaining the amount necessary to organize the company, something of a sum remains to be subscribed, and our friends there find it a heavy load to raise the whole amount among themselves, and confidently look to other parts of the State, and to Bangor in particular for aid. Something has already been done here, but nothing in comparison with our ability, or what would be subscribed, if our citizens appreciated the advantages of this road to our State and our own city. But few years will elapse before we shall have a railroad from Bangor to Waterville, and the road will be extended, to the Atlantic and St Lawrence Road is built, to strike the latter at some point high up the Androscoggin, so as to give us a direct route to Montreal, making the distance from Bangor to Montreal but little greater than from that city to Portland. Now we do not hesitate to say, that the proposed road, if built, will furnish beyond comparison, the best outlet for Western produce to the Atlantic, and the best route for trade and travel flowing to that section from the East, and will do much more for Maine, than the great canal has accomplished for New York, as a vastly greater necessity compels us to build this road than forced New York to construct the Erie Canal. She had, before she commenced this great work, all the elements of prosperity within herself, possessing one of the best soils of any State in the Union, united with great commercial and manufacturing capacity. In Maine, unless we turn our attention to something besides agriculture, we cannot hold the population we now possess, for it is a fact, as far as our information extends, that the farming interests have retrograded for the last ten years, and a very general discontent pervades that class, which carries off great numbers every year to the more fertile west. At the same time we have greater commercial and manufacturing capacities than any other State in the Union, and it is to these sources of wealth and prosperity that our industry must be directed if we would keep pace with other States. Two conditions are necessary to develope these resources. The ability of cheaply supplying ourselves with those agricultural products not adapted to our soil, and an outlet for what our State is best adapted to produce.—Now this road fulfils these two conditions most fully, for western products can reach Portland or Bangor, over this route, at a less expense than any other Atlantic port, and for the same reason, the fruits of our commerce and manufactures can more easily be distributed through the West, than those of any other Atlantic State. With this road we have the ability of erecting ourselves into an independent State, possessing sources of inexhaustible prosperity within us—without it, we must continue to be as we now are, hewers of wood and drawers of water to our neighbors.

The construction of this road secures a Rail Road through the whole State, from east to west. English capital would build it for the purpose of opening a communication with her provinces.—This is one of the inducements that leads them to take so strong an interest in the proposed road, and making the distance from Montreal to Portland or Boston about the same as from Ogdensburgh to Boston.

When this road is completed its advantages will not be felt by Portland alone, but by all the citizens in the State, much more equally than is imagined, for the road touching at Augusta, Bangor and other large towns at the head of tide water, will be accessible to the towns lying below the road, and branches striking from these points into the interior, will accommodate those lying above.

With this great avenue traversing the centre of the State, connecting with the extremes by navigable waters on the one side and branches on the other, will be the great artery through which will flow to us, our life blood, the agricultural products of the West, while its return tide will bear from us, to her inexhaustible fields the products of our own industry.

Maine can not afford to let this opportunity go by, as it certainly will, unless we immediately take measures to meet those who are co operating with us in the great work on the other side of the lines. Unless we meet them now they will turn their attention to another outlet, and without the aid of English capital and English influence, we might as well attempt to construct a railroad to the moon.

At the present time the profits of every branch of our industry flows to Massachusetts. From them we draw almost every article of clothing, and to her merchants we pay a profit upon almost every thing we eat or drink. We have always been in complete vassalage to that State, and must continue to be so as we have been unless we this scheme succeeds. Her success is a new independence, its defeat only perpetuates subjection.

About $100,000 is now wanting to complete the $1,000,000, the amount necessary to organize. This sum is all that it will be necessary to raise in Maine, as we have assurances that when this is raised, whatever may be wanted to complete the road can be procured abroad. All that Maine is asked to do to complete this great work is to raise a million of dollars, and by raising this sum she receives advantages equal to those received by any other State by the expenditure of enormously large sums in the construction of their public works. Those living immediately on the line of the road have already assumed a load greater than their strength. They call upon us to do some thing. Our interest will not suffer this work to fail, our aid will not. Every man can do something, can take one share at least. We understand that the committee to procure subscriptions will make a further effort. All our citizens may expect to be called upon. In the mean time we hope that they will give their careful attention, for there is no one who gives this subject any consideration but will do something.

☞ It is stated in some of the papers that Cassius M Clay's friends induced him to consent to the removal of his press from Louisville to Cincinnati, but we cannot find sufficient evidence of this consenting on his part. We do find however that a multitudinous and highly excited meeting, was held at which, for the suggestion of T F Marshall, a resolution was passed that they would stop the press—peaceably if they could, but forcibly if they must. This meeting also chose a committee of sixty to cause the removal of the press. The object was accomplished while Mr Clay was confined to his bed by fever. To the outrage of suppressing a free press in Kentucky, devoted to the best good of society there, and to the rights of man every where, C M Clay is not the man to consent. Much less would he consent to yielding up his rights, and the press, purchased by his money, the instrument of his heart warm patriotism, and out gushing aspirations for the freedom of man, at the bidding of a mob, though dignified with the name of a committee of sixty! He was languishing upon the bed of sickness, and racked with pains, and physically unable to stand, much less adequately defend his rights. We cannot but feel the indescribable meanness of the Kentucky mobocrats for adding so deep and damning a stain upon an atrocious outrage against property and rights.

We pray that the life of Mr Clay may be preserved—his health restored and that he may yet be able to publish freely what he believes to be the truth regarding the crushing evils of slavery, and that the new developments furnished by the recent outrage may be made to produce a favorable effect in illustrating the abominable spirit of American slavery. We cannot but hope that there may be less of defiance in his manner and that he may think too much of his cause to injure it by connecting it with much of personal feeling, or the idea of his own personal bravery.

☞ We have been extremely pained recently on learning that there are quite a number of boys in this city who are in the habit of drinking intoxicating liquors and who are getting into the habit of drinking daily. It is difficult to conceive of a greater wrong these youngsters can do to themselves that acquire the habit of creating an excitement by the pernicious stimulant of intoxicating liquors. And what greater wrong can be inflicted upon society than for men to sell liquors to the youth described? We would warn these young men against the evils of the course they are pursuing, and we would rebuke that reckless spirit in men which can tempt them to destroy the hope of society and despoil God's image in man by corrupting and ruining youth by holding the cup of intoxication to their lips.

☞ Dr Dods will lecture this evening at the City Hall on the subject of Mesmerism, and will give a great variety of splendid and surprising experiments relative to mesmerism, magnetism, electricity and galvanism. Mr Tarbox the subject thrown into the magnetic state, probably has no superior in the country in this department. His examinations of diseases have surprised a great many, and his accounts are verified by the patients. Attendance upon these lectures, and experiments is certainly an interesting way of spending an evening whether the person be a believer or not believer as to the fact, or the merits of mesmerism.

A Flighty Party.

On the night of July 27th, the celebrated aeronaut, Mr Green, made his 394th ascent from King's Road, near London, in his royal Nassau balloon, accompanied by two ladies and eight gentlemen. The balloon, after rising to the height of about a mile, passed over a great part of the metropolis, after which it was lost sight of. After remaining in the aerial regions two hours and twenty minutes, the voyagers landed safely in a large marsh in Tottenham. The greatest elevation was 6,500 feet, the barometer having fallen from 29 85 to 23 90, and the thermometer from 66 to 46.

☞ We publish to-day, at the order of N A M Dudley, Adjutant of the Roxbury Artillery Company, the card of said Company returning thanks for attentions received during their late visit to this city. This Company left a pleasant remembrance here, as our Military and other friends greatly enjoyed the fine social occasion afforded by their presence.

☞ The Armenian sufferers by the recent terrible conflagration at Smyrna, have made an appeal to the benevolent throughout the world for aid. They state that out of nine hundred houses belonging to their people, only thirty seven remain. Their resources in the charitable accumulations were also destroyed.

☞ The Americans have six hundred whale ships in the Pacific Ocean valued at more than twenty millions of dollars. The whole world besides has but half as many whale ships as we. The government is engaged in collecting a strong naval force in the Pacific for the protection of this interest.

☞ There will be a very short Cotton crop made in Georgia, and great suffering we apprehend from the failure of the Corn crop. Corn is already selling in Griffin at 70 cents per bushel and the prospect is that it will be still higher.

☞ Ten thousand Mexican troops are announced as being within about eight days march of General Taylor's Quarters, and it was anticipated that they might be even nearer. This is interesting news, and the receipt of it makes us more anxious than ever to have later intelligence from Mexico.

☞ The Washington Union Friday says—"We are not advised that our Government has received any late despatches or further information from Mexico. Our precautionary preparations are still advancing with great spirit."

☞ The wheat crop in the West is abundant, and the grain of better quality than that of last year.

☞ Martin, the Independent candidate, is elected Governor of Alabama, over Terry, the regular nominee, and the Mobile Register, the leading Democratic paper of the State, declares, that this event has "effectually disorganized the Democratic party for years to come," and that it is a more heavy blow to Democratic ascendency in this State than the election of an out and out Whig Governor could have been.

Elliot has been fully committed in Washington, to await his trial for the murder of young Kendall.

The late Captain Joseph T Dwight, N Y bequeathed nearly all his estate to the Roman Catholic Church, for a new College. The bequest is supposed to be worth $15,000 or $20,000.

☞ The government is again doing a fine business for the owners of steamboats on the Mississippi by chartering their craft for the Texas War. The old times of the Florida war are again to be realized.

☞ Large beds of chalk have been found in Northwestern Arkansas, the first and only discovery of the kind in the U S.

☞ Hay is said to be scarce and dear in New York city.

☞ Rev Mr Jarrett will lecture this evening at Dow's Hall, on the doctrines of Swedenborg.

Saratoga Springs.

Aug 23 1845

To the Editor of the Whig and Courier

You were encouraged to expect some letters from me while at this celebrated watering place in pursuance of health. My apology for delay is, that coming here in ill health and finding the *first* effects of the waters unpleasant (which I learn was no uncommon thing) it was utterly out of my power to wake up sufficient energy of mind or imagination to give life to the descriptions I might attempt of the scenery and characters around me. Should I succeed no better at this time your readers will set it down to the credit of innate dullness, for I can assure them my health is manifestly improved and my mind clearer than it has been for many weeks. My journey here was entirely a pleasant one, by the Steamer Penobscot to Boston, thence by rail road to Worcester and Norwich, and by the steamer Worcester to New York of this part of my journey I say nothing, not wishing to weary your readers by describing objects and scenery already familiar to them either by personal observation or by reading but the passage up the Hudson by daylight on a fine summer's day on board the grand Steamer Niagara with a complement of five or six hundred passengers must not be passed over without some notice—true, it was something of a scramble to get on board, then to secure our baggage and to find a place to stow ourselves among the crowd—however, when we had all found our proper places, the spacious boat seemed to afford room for us all and some to spare—not so at the dinner table! Of this I will say nothing, if I miss of but one meal on a journey of six or seven hundred miles it is not best to make a noise about it. As the morning fog cleared away, objects of surpassing interest either for their intrinsic beauty and grandeur, or from the reminiscences connected with them, peered out from every headland and every turn in this noble river. We passed in succession, Jersey city, Hoboken, the *Palisades*, those perpendicular precipices of rock from one to five hundred feet high and extending more than twenty miles on the west side of the river. We then pass Tarrytown, the scene of Andre's capture—next comes Sing Sing the seat of the State's Prison—Croton the source of the abundant supply of fresh water carried from this place at many millions of expense more than forty miles to the great city. We now pass Stony point, famous for its capture by General Wayne at the point of the bayonet, at midnight in July 1779. Soon we are at West Point, remarkable in Revolutionary history and now the seat of our National Military Academy. The natural situation and scenery of West Point is very fine and the buildings and other improvements for the accommodation of the school, handsome and imposing. The river is here so narrow that our long steamer had barely room to turn around the point and the water is said to be three hundred feet deep in the whole channel. In the afternoon we were for hours in sight of the Catskill mountains, rearing their majestic heads one above another and one behind another among the clouds, for a long distance on our left. The whole day was passed in viewing such scenery as this already described and in addition, rich and highly cultivated farms, dense forests, beautiful groves flourishing cities, towns, and villages, and withal we were continually passing gay steamers filled with passengers, canal boats and freight barges towed by steamers, and light packet sloops, the whole combining as much that is beautiful and sublime both in nature and art as probably could be seen in the same time and space on the continent. Near the city of Hudson we saw the wreck of the ill-fated Swallow laying her bones to dry on a miserable mud island in the middle of the river.

Long before night we passed the city of Albany and landed in good season at Troy six miles above. These are flourishing small cities possessed of great natural advantages, but far more indebted to art and the indomitable energy of man for their prosperity—their canals and rail roads have made them what they are—and the same causes, with the persevering enterprize of their inhabitants will continue to build them up and carry them forward without any assignable limits. Albany doubtless deserves no benefit from being the capital of the Empire State, but Troy will never let them go far before them. After a night at the Troy-House, one of the best houses on the route, I took the cars for this place, where I arrived with a goodly number of fellow passengers at 11 o'clock A M. And now for the first impressions of the Village of Saratoga Springs. It is already a *large* place, much larger than I expected to find—it is a growing place—much of it looks new and is well built—the streets are spacious and ornamented with an abundance of shade trees—the side-walks broad and kept quite clean—the public edifices evince a good share of correct taste, but no thing strikes you so forcibly as the magnificent models on which the principal houses of entertainment are built. They far surpass all such establishments which I have seen, in their dimensions, in the elegance of their principal rooms, and in the spaciousness and richness of the enclosures connected with them. Saratoga is a busy place not *filled* but thronged with people from every part of our Union and the civilized world, and though a goodly proportion of these are from among the poorer or middle class, congregated here for the restoration of health, you would at once discover that much the larger share are from the wealthy and the fashionable in pursuit of pleasure. I think too that a physiognomist would say that the talent and intellect of our country were fully represented.

The weather has been beautiful almost every hour since I have been here. There has been nothing to prevent the enjoyment of out door scenery or out door amusements. Adieu.

Yours truly,
J P

A Card.

ARMORY OF THE ROXBURY ARTILLERY,
Roxbury, August 20th 1845

The officers and members of the Roxbury Artillery Company tender to the citizens and authority of Bangor and Portland their grateful acknowledgements for the varied and hospitable attentions extended to them on their late tour.—From the arrival to the departure of the Corps, a genuine feeling of kindness and welcome was ever manifested towards them. The thanks of the Corps are due, in an especial manner,

IN BANGOR,

To the "Bangor City Greys, Capt Morrill for an escort, and an elegant entertainment at their Armory on our arrival—for a social levee on the evening previous to our departure—for Camp equipage, and numerous other attentions.

To the "Bangor Rifle Corps, Capt Cummings for an escort—for a delightful entertainment in a scene of rare elegance, graced by the beauty and fashion of the city.

To the "Brewer Artillery, Capt. Dyer, for a collation, and salute on arrival.

To H S Head, Esq and family for assiduous attentions and acts of kindness to our officers and staff—a hospitality never to be effaced from our grateful remembrance.

To Gen Hersey, Col Mills, and other gentlemen for civilities unnumbered. The pleasant drives into the country will long be remembered.

To the Ladies of Bangor, for their successful efforts to entertain our wives, and for their affability and kindness, as truly grateful as unexpected.

IN PORTLAND

To our old friends in Portland, what shall we say? The pleasant recollections of a former tour with all its associations crowd upon us—words are wanting—we extend the friendly grasp.

To the Portland "Volunteer Engine Company No 3 Capt Wilson, (late Portland Light Infantry)—first to protect their State from invasion and their City from fire—we are under renewed obligations for a brilliant escort, a bountiful collation where wit and merriment long prevailed and a delightful levee. Their soldiers are welcome and soldiers fare will ever be remembered with a soldier's gratitude. May the Legislator second thought of their Legislators soon do justice to the State's Defenders.

To Co Kinsman and staff, for acts of courtesy and kindness.

To Mr Robinson for a bountiful supply of his unrivalled fees and Confectionary.

To Col Thorpe, Elm Hotel, for a neat collation for old acquaintance sake.

To Mr Moody Mitchell, Joy, for kind attentions at the House victory.

To the Ladies of Portland our renewed and grateful acknowledgments—well may the city shall boast of its bulwarks and sure defences, for

"Beauty stronger still affords
Stronger far than flames or swords,
Stronger far, than swords or shields
Man himself to Beauty yields."

To Capt Howes, Steamer Charter Oak, for his unwearied attention to our wants, and marked kindness to our officers—we heartily recommend him and his Boat to all travelling East.

To the Superintendent and Conductors of the Railroad for the continued endeavors to render our journey comfortable and pleasant.

(Signed)

JOHN L STANTON, Capt R A
JOHN HALL, Jr 1st Lieut,
SAM'L S CHASE, 2d
MOSES PECK, 3d
I R WHITEMORE, Clerk
} Committee

When a horse runs away with you, have the presence of mind to catch hold of his mane, and your bridle round his neck and pull upon it and it will have the immediate effect of stopping his career however headlong his career may be. Or if your bridle is not long enough, clasp your arms round his neck and with your hands clench his windpipe, by doing this you will effectually stop him, the moment his respiration is checked.—Persons having but a small portion of presence of mind could thus save their own or a fellow creature's life.

☞ A correspondent of the Lowell Courier thus describes one of the attractions of the city of Paris, the Gardens of the Tuileries.

Taking your stand at the Palace, picture to yourself a space comparatively open, laid out with regular walks, at each intersection of these, beautiful classic statues, the intervening places filled with the choicest flowers and ranged along the side fine orange trees, beyond, a fountain, then a grove, also interspersed with statutes, and occupying the whole width of the garden, then following the main avenue, a fountain, the gate, the Place de la Concorde, with the column of Luxor, brought from Egypt, thence farther on the Champs Elysees, ornamented with groves of trees and interspersed with places of amusement—thence through the Champs Elysees, nearly a mile, the Larger de l Etoile and most magnificent Arc de Triomphe, and you have a scene which the most poetical imagination could not exceed. Here in these extensive gardens mothers come with their children and while the former are sewing and gossiping in groupes in the refreshing shade, thousands of people are coursing through the different walks.

From the True American.

Female Influence.

The customs of society, for which, as women, we are highly responsible, often interpose the most formidable barriers to the perfection of those characters which have commenced a happy development under the maternal guardianship.—Unnatural elements are often mingled with those which nature and philosophy suggest. The usages of society often sanction those moral wrongs which inevitably lead to many revolting vices. Whenever and wherever these exist, there the holy mission of woman is demanded. Her high moral sentiments, her refined and elevated tastes, point her out as the true pioneer in all social reform. As she, from her peculiar position, is first to feel whatever of moral wrong may have been mingled with the elements of society, the first to shrink from all that is inhuman and revolting, so she should be the first to seek for a just reform.

As political responsibility does not primarily rest upon her, her true sphere is to purify and regulate the source from which all actions flow. The right development of the tastes and sentiments of the young would ultimately lead to the most thorough social and political reform.

Public virtue is but the open expression of private character, and that character as we see, is, to a great extent, dependent upon maternal instruction and restraint.

Yet her influence is by no means limited to the destiny of the future, through her offspring. She acts upon the present. Her influence is seen and felt in all the relations of life. She is not only a parent, she is a companion, a sister, a friend. If the stronger, sterner nature of man is in danger of becoming too severe and selfish, the high influence of woman, still denying love, can seldom fail to render him gentle and generous. Even her tones of voice are characteristic of her more gentle mission.

Her voice was always soft, an excellent thing in woman!

Her disinterested friendship has often a restraining and elevating power which the clear headed and strong reasoning man never could attain, owing to the high development of the gentle affections in her nature. The sincerity and refinement of the true, unaffected woman, are unquestionably the result of the high development of the moral sentiments and the gentle affections. Then we see many exceptions instances where these are grossly violated and where in consequence, females have become even more degraded than men. This may be owing in part, to the fact that their primary mental and moral organization gives them less commanding influence and strength and more instinctive propriety and refinement. Which then, but are violated there is less of power to resist the downward tendencies than in a stronger organization.

But the true woman, though she may be less bold and original than man, nevertheless guided by an instinctive perception and beauty that peculiarly fits her to fill the first circles in the ascending spiral of reform. While her pervading influence must be felt the world's mass still rests in the primary, yet tending to a great extent, upon her wisely directed social influence. The responsibilities then which rest upon us as women are of a moral nature, involving the best interests of society and leading to the formation of both private and public character.

Whilst our voices do not thunder in the Senate, nor our counsels dictate loudly in the Halls of Legislation, still our influence first represented there, and the still small voice of domestic affection and mutual love is often the polar star that guides the politician and the statesman through the most tempestuous seas to the haven of truth and duty.

O how faithfully then should we execute this angelic mission. How vigilant how prayerful should we well denying, should we very mollify our hearts, that the high trust may be fully, understandingly and conscientiously performed. The destiny of the rising generation in our hands, and our influence will stand or fall through our virtues or our weakness.

MARIA

☞ Our thanks are due Mr Spear, Clerk of the Charter Oak for Boston papers, in advance of the mail.
